

REMARKS

The above-identified patent application has been carefully reviewed in view of the Office Action of April 8, 2009. In the Office Action it was requested that non-elected claims 1-17 be cancelled. The drawings were objected to because the channel 40 and channel 140 as identified in the specification were not labeled in the drawing figures. The Office Action also indicated that the reference numbers 10, 32 and 46 in Figure 8 should be 110, 132 and 146. Corrected drawing sheets were required. An objection was made to the wording in paragraph 3 of the specification. Claims 18-20 were objected to for the wording of these claims.

The non-elected claims 1-17 have been cancelled above.

Replacement drawing sheets including changes to Figures 4, 7 and 8 are submitted herewith. Reference number 40 is shown in Figure 4 and reference number 140 is shown in Figure 7. Reference numbers 110, 132 and 146 are now shown in Figure 8. It is respectfully submitted that the replacement drawing sheets respond to all of the requirements in the Office Action.

Paragraph 3 of the specification has been amended above as required in the Office Action.

Claims 18 and 20 have been amended above as required in the Office Action. Dependent claim 19 is also amended above to reference the corner and bulkhead protector.

It is respectfully submitted that all of the requirements of the Office Action have been met. Allowance of claims 17-20 is respectfully requested.

Date: 6-4-09

Respectfully submitted,

Jeffrey R. Gray
